IUGA  
46<sup>th</sup> Annual Meeting  
December 9-12, 2021  
Virtual  
www.iugameeting.org

**Saturday**

**11**

From 6.30-7:00 pm  
Central European Time

Included on IUGA program.  
Also, available on demand after  
the scheduled time.

### SINOPSIS:

Understand the use of **Anchorsure** for apical prolapse through anterior approach and review new data on efficacy and safety of the Anchorsure.

Realize the importance of the use of ultrasounds when using an **adjustable Remeex** sling for recurrent SUI and ISD patients.
